Sex have always a price - Sexuality - Intimate relations before marriage

Sex has a price tag - 59 minutes

{youtube}jm5O5-u9H4g{/youtube}

Pam Stenzel, Founder of ENLIGHTEN COMMUNICATIONS Inc., tackles today's tough issues of sex with candor, insight, humor, and the challenge for young people to get the abstinence advantage.

Pam has traveled worldwide, speaking in person to over 500,000 young people each year about issues of sexuality and the importance of abstinence - her videos are viewed by millions worldwide.

Pam also holds seminars with parents and educators regarding issues of teen sex and how vital character building is in a child's upbringing.

People today are faced with a raging plague of sex related problems.

Pregnancy, sexually transmitted diseases - including HIV - and rape statistics are at all time highs.

Even so, today's society encourages sexual activity, and young people must have a compelling reason to commit to sexual abstinence.

In "Sex Has A Price Tag" internationally renown communicator, Pam Stenzel, combines her personal story and extensive pregnancy counseling experience into a hard hitting look at the consequences of sexual activity outside of God's design for sex, which is marriage.

Dr. Miriam Grossman: You're Teaching My Child What?

{youtube}v=0leKSCHXs-0{/youtube}

Miriam Grossman, M.D., is a US-based board certified child, adolescent, and adult psychiatrist. Dr Grossman writes and speaks internationally to parents, students, educators, legislators and health professionals internationally on the dangers of political correctness in her profession. She has lectured at the UN Commission on the Status of Women and in Britain's House of Lords.

Dr. Grossman's mission is to highlight the dangers of the anything-goes, condom-based approach to sexual health. With examples from cutting edge research, she proves that sex is a serious matter, and can never be 'casual', especially for girls.

She also reports on her examination of NZ-based educational resources and websites hosted by groups such as Family Planning, Rainbow Youth and others -- many funded by the government, available to schools, and targeted at students.

Secret History: Kinsey's Paedophiles

{vimeo}69866367{/vimeo}

In 1948, the Institute for Sex Research at Indiana University was led by eugenicist Alfred C. Kinsey, whose sex research shook America's moral foundations and launched the 1960s Sexual Revolution.

This is a Yorkshire Television production for Channel 4, produced and directed by Tim Tate, aired August 10, 1998. The show features interviews with Kinsey team members Paul Gebhard

and Clarence Tripp, Kinsey Institute director John Bancroft and several of Kinsey's biographers.

Here's an original press release of the production: drjudithreisman.com/old/timtate.htm
Dr. Reisman's revealing book covering this fraud, "Kinsey, Crimes & Consequences": drjudithreisman.com/archives/2005/08/kinsey_crimes_c_1.html

„The sexual revolution was based on a lie. Dr. Judith Reisman has spent 30 years uncovering the truth.” (National Review)

Fifty years later new revelations confirm Dr. Judith Reisman's 1981 expose of scientific fraud and criminally derived data contained in the publicly funded Kinsey Reports. Dr. Reisman revealed that Kinsey conducted human experiments in a soundproof laboratory built to his specifications at Indiana University, and that the sexual abuse of at least 317 infants and young boys was a scientific protocol for Kinsey's 1948 report. Dr. Reisman discloses for the first time the ongoing consequences to the American people and the world based on Kinsey's deliberately skewed research. Kinsey died in 1956 but his Institute endures today under the expanded title of "The Kinsey Institute for Research in Sex, Gender, and Reproduction," suggesting an even more ominous threat to human rights and liberty.

„Dr. Reisman: Your manuscript does an impressive and important job of exposing how heavily Kinsey's data relate to criminals and sex deviates.... Kinsey does, to be sure, scatter bits of information about this... no one previously has done the painstaking detective work of pulling the bits and pieces together and estimating the proportion of respondents who were in these categories... your figure of "roughly 86 percent" does appear to be in the right ball park; but even if the correct figure were only a quarter of that, the effect on Kinsey's validity would be devastating. Overall, your manuscript strongly reinforces my 1949 conclusion that " ... it is impossible to say that the book has much value...."

(W. Allen Wallis, past president of The American Statistical Association and past editor of The Journal of The American Statistical Association)
