ECPM supports March for Life Initiative

Tuesday 22 December 2009 11:27

The European Christian Political Movement supports the March for Life Initiative. The organizers for this March come from several ideological backgrounds but they all want attention for the fact that all born and unborn infants deserve life, respect and protection.

The march will take place in Brussels on 28 March 2010. If you want more information about this initiative you can go to <http://www.28march2010.be>

The ECPM hopes that several of its members will be present in March to step up and defend the rights of those who are not able to defend themselves.

Supermodel Kathy Ireland uses Science and Reason to tell Mike Huckabee why she became Pro-Life (for life, anti abortion). She was pro-choise (for abortion) in the past

{youtube}oMjeddlJCqU{/youtube}

She does talk about being a Christian but makes her point using science not blind faith as a basis.

She correctly tackles the fundamental questions: What is the issue? What is the unborn? and What is the value of human life?

After all you can't have a position that is either pro-life or pro-choice unless you can answer the question - What is the unborn?

If it were not a life then you would not have to abort it. If the unborn is not a human being then no justification is necessary.

If it is a human being then no justification is adequate (for abortion).

There is after all no difference on your DNA when you are an adult, child or just a few cells not yet fully developed but still fully human in nature.

Body size does not determine value.

The former Presidential candidate Huckabee learned something and maybe you will as well.

Kathy Ireland, about pro-choise (pro abortion) thinking: "...Some people say is a womens body, it should be her choise. There is a 50% chance the baby she's caring is a male child and he would have a penis . **Women don't have penises ! So he (baby) is residing in her body is not a part of her body !**

Steven W. Mosher is the President of the Population Research Institute, spoke of a "Gendercide in Asia."

According to Mosher, policies that limit the number of children a family are a contributing factor to the **trend of sex-selective abortions**; which Mosher called "a chilling reality in many countries in Asia."

Mosher cited an estimate from the British medical journal The Lancet that as many as half a million female fetuses are aborted in India each year because of their gender. Mosher further claimed that **"the problem extends beyond India" and is bringing about disastrous consequences.**

Mosher: **"A recent United Nations Population Fund report says at least 60 million girls are 'missing' in Asia because of sex-selective abortion, infanticide and neglect."**

Steven W. Mosher is the President of the Population Research Institute.

Speech is given prior to the international premiere screening of the documentary **"Demographic Bomb"**, a

sequel to the well-known

"Demographic Winter"

The Truth Trucks - The Truth about Abortion - Anti-Abortion Campaign by Operation Rescue - USA

The Vision

Wanna know of what the pro-aborts are MOST afraid?

They've told us!

Not long ago, a pro-abortion newspaper in LA ran a lengthy front-page feature story blasting Operation Rescue West.

The whole article was dedicated to the fact that...

USING PICTURES OF ABORTED CHILDREN IS EXTREMELY EFFECTIVE In The Fight Against Abortion!

The fact that most pro-aborts are now publicly admitting that this is what they HATE THE MOST just shows how effective our Truth Truck project really is.

They can't stand the fact that we have the gall to not only document but DISPLAY the American Holocaust as it's happening - in virtually every American city you can name.

But, of course, the pro-aborts don't deter us in the least. In fact, they spur us on to keep going!

You see, we're out to reach the hundreds of millions of Americans who - even after 36 years of legalized abortion (Roe vs Wade 1973) in this country - STILL don't know what an aborted baby looks like.

They haven't seen the truth. Until now.

Where We Go

MILLIONS of people have seen our TRUTH TRUCKS

We've been everywhere and done everything (Well, almost!). We've been to hundreds of cities, large and small, all across America.

We go to the busy downtown areas ... to the big shopping malls ... to the crowded beaches ... to sporting events ... we get in city parades - wherever there are lots of people - we're there!

We've been to the Super Bowl ... the Olympics in Salt Lake City ... the Democratic Convention ... the St. Patrick's Day Parade ... Mardi Gras in New Orleans ... the Daytona 500 in Florida ... to the biggest abortion clinics in the country ... even to the big Planned Parenthood fundraisers!

You name it, we've done it, or will do it.

We have saved more babies and changed more people's minds than with any other project

Truth Truck Will Deliver New Year's Message To Pro-life Traitor Sen. Ben Nelson

Neighborhood protest of Senator's home will show the truth about the results of taxpayer funded abortion

Posted January 1, 2010 at 10:18 am

Omaha, NE – An abortion protest featuring Operation Rescue’s Truth Truck will be conducted on New Year’s Day near the Omaha home of Sen. Ben Nelson.

The protest against Nelson’s scheme for tax-funded abortions will be held on January 1, 2010, in the neighborhood of 9735 Fieldcrest Drive in Omaha, Nebraska, beginning at 2 PM, Central Time.

“The Pro-Life Movement will be making Sen. Nelson aware of our New Year’s Resolution. We will no longer tolerate betrayal of politicians who pretend to be pro-life. If you betray the innocent blood of the babies you have promised to protect, we will vote you out on Election Day. It’s as simple as that,” said Rescue the Heartland’s Larry Donlan, who will be driving Operation Rescue’s Truth Truck, a large paneled vehicle displaying actual photos of aborted babies.

“If Nelson is so bent on forcing us to fund abortions, it is appropriate for us to show him the truth about what abortion does to babies,” said Operation Rescue President Troy Newman.

Nelson betrayed the trust of his pro-life constituency by accepting what has become known as the “Cornhusker Kickback” in which he exchanged his vote for abortion funding in the Senate’s health care bill in exchange for financial favors for Nebraska.

Nelson continues to attack those who once avidly supported him by making statements on radio and television ads defending his indefensible act and making further threats if his “deal” is “watered down” by the conference committee that will be charged with reconciling the House and Senate versions.

However, Rep. Bart Stupak has indicated that he and ten other House members will not vote for the final health care bill if it contains Nelson’s abortion funding scheme or any other plan for abortion funding. Thirteen State Attorney Generals have announced that they will sue to prevent the implementation of any health care legislation that contains Nelson’s “Cornhusker Kickback.”

“In the latest poll, 72% of the American people opposed taxpayer funded abortions. That percentage is likely higher in Nelson’s home state. Nebraskans do not want the blood-money that the Democrats promised in exchange for Nelson’s vote approving abortion funding,” said Newman. “When our elected representatives refuse to represent the will of the people in favor of their own interests, then it is time to rebuke them and

kick them out."
