

Lila Rose Lays Out the Case Against Planned Parenthood on "The Factor"

{youtube}Abdvj7rPpjA{/youtube}

Planned Parenthood is a Pro-Abortion (Pro-Choice) organisation in America and for the year ending 2008 total revenue they took in is 966.7 millions \$ and most of them come from abortion procedures.

Preview interview is made on basis on next tape made by Lia Rose. On next tape you also can see confessions of former Planned Parenthood director Abby Johnson, she confesses that: "Planned Parenthood really tries to instill in their employees and the women that are coming for abortions that: is not a baby, this is just a mass of cells. Don't say baby in the clinic ! Don't say baby to the women coming in for an abortion" (...) she also confesses that the doctors from Planned Parenthood: "they are really trying to INCREASE their abortion NUMBERS because that is the most lucrative part of their business" for details see next video:

PLANNED PARENTHOOD'S TOP DOCTOR, PRAISED BY CEO, USES PARTIAL-BIRTH ABORTIONS TO SELL BABY PARTS

PPFA Senior Director of Medical Services Deborah Nucatola, Other Planned Parenthood Leadership Documented Selling Aborted Baby Parts in 3-Year Investigative

Journalism Study

Contact: David Daleiden, media@centerformedicalprogress.org , 949.734.0859

LOS ANGELES, July 14

New undercover footage shows Planned Parenthood Federation of America's Senior Director of Medical Services, Dr. Deborah Nucatola, describing how Planned Parenthood sells the body parts of aborted fetuses, and admitting she uses partial-birth abortions to supply intact body parts

In the video, Nucatola is at a business lunch with actors posing as buyers from a human biologics company. As head of PPFA's Medical Services department, Nucatola has overseen medical practice at all Planned Parenthood locations since 2009. She also trains new Planned Parenthood abortion doctors and performs abortions herself at Planned Parenthood Los Angeles up to 24 weeks.

The buyers ask Nucatola, "How much of a difference can that actually make, if you know kind of what's expected, or what we need?"

"It makes a huge difference," Nucatola replies. **"I'd say a lot of people want liver.** And for that reason, **most**

providers will do this case under ultrasound guidance , so they'll know where they're putting their forceps.

The kind of rate-limiting step of the procedure is **calvarium**

Calvarium - the head

- is basically the biggest part

"

Nucatola explains, “We’ve been very good at getting heart, lung, liver, because we know that, so I’m not gonna crush that part
,
I’m gonna basically crush below
,
I’m gonna crush above
, and
I’m gonna see if I can get it all intact
.”

“And with the calvarium, in general, some people will actually try to change the presentation so that it’s not vertex,” she continues. “So if you do it starting from the breech presentation, there’s dilation that happens as the case goes on, and often, the last step, you can evacuate an intact calvarium at the end .”

Using ultrasound guidance to manipulate the fetus from vertex to breech orientation before intact extraction is the hallmark of the illegal partial-birth abortion procedure (18 U.S.C. 1531).

Nucatola also reveals that Planned Parenthood’s national office is concerned about their liability for the sale of fetal parts: “**At the national office, we have a Litigation and Law Department which just really doesn’t want us to be the middle people for this issue right now**,” she says. “**But I will tell you that behind closed doors these conversations are happening with the affiliates.**”

The sale or purchase of human fetal tissue is a federal felony punishable by up to 10 years in prison and a fine of up to \$500,000 (42 U.S.C. 289g-2).

A separate clip shows Planned Parenthood President and CEO Cecile Richards praising Nucatola’s work to facilitate connections for fetal tissue collection. “Oh good,” Richards says when told about Nucatola’s support for fetal tissue collection at Planned Parenthood, “Great. She’s amazing .”

The video is the first by The Center for Medical Progress in its “Human Capital” series, a nearly 3-year-long investigative journalism study of Planned Parenthood’s illegal trafficking of aborted fetal parts.

Project Lead David Daleiden notes: **“Planned Parenthood’s criminal conspiracy to make money off of aborted baby parts reaches to the very highest levels of their organization. Elected officials must listen to the public outcry for Planned Parenthood to be held accountable to the law and for our tax dollars to stop underwriting this barbaric abortion business.”**

Supermodel Kathy Ireland uses Science and Reason to tell Mike Huckabee why she became Pro-Life (for life, anti abortion). She was pro-choice (for abortion) in the past.

{youtube}oMjeddlJCqU{/youtube}

She does talk about being a Christian but makes her point using science not blind faith as a basis.

She correctly tackles the fundamental questions: What is the issue? What is the unborn? and What is the value of human life?

After all you can't have a position that is either pro-life or pro-choice unless you can answer the question - What is the unborn?

If it were not a life then you would not have to abort it. If the unborn is not a human being then no justification is necessary.

If it is a human being then no justification is adequate (for abortion).

There is after all no difference on your DNA when you are an adult, child or just a few cells not yet fully developed but still fully human in nature.

Body size does not determine value.

The former Presidential candidate Huckabee learned something and maybe you will as well.

Kathy Ireland, about pro-choice (pro abortion) thinking: "...Some people say is a womens body, it should be her choise. There is a 50% chance the baby she's caring is a male child and he would have a penis . **Women don't have penises ! So he (baby) is residing in her body is not a part of her body !** ..."

California Pro-Lifers Launch Human Rights Amendment Petition Campaign

{youtube}uWqb-moRDUg{/youtube}

California has joined the race to recognize human rights and personhood for all human beings from the biological beginning of development.

The states most outspoken pro-life advocates submitted the California Human Rights Amendment to Attorney General Jerry Brown following a press conference Monday in Sacramento.

The preborn, while demonstrably alive and demonstrably human, are not protected persons under our state constitution, said Lila Rose, the 21-year-old student pro-life activist, president of Live Action and cosponsor of the amendment. Our laws must protect each person's basic human right to life, from the beginning of his or her life until the end.

The push is backed by the California Civil Rights Foundation, a coalition of pro-lifers including Rose and sponsor Walter Hoye, the pastor arrested and imprisoned in 2008 for standing in silent witness outside an abortion mill.

The California Human Rights Amendment recognizes that valuing human life is fundamental to life itself, Hoyer said at the press conference, and is the cornerstone of peace and prosperity for any society.

Hoyer and Rose were joined by Judie Brown, president of American Life League, and Keith Mason, founder of PersonhoodUSA.

The activists stressed that personhood fulfills the dream of the civil rights movement.

The injustice of denying the personhood of whole classes of human beings is an injustice that cannot go unchallenged, Brown said. Now is the time for justice. Nothing less is acceptable in a republic based on the principle of equal justice for one and all.

California joins personhood movements in Missouri, Florida, Montana and Colorado. California state law requires a petition be circulated and signed by a number of people equal to at least 8 percent of votes cast for governor during the last state election.

Planned Parenthood's Declaration of Debauchery

{youtube}2RWVLQx98Yk{/youtube}

The International Planned Parenthood Federation released a declaration of Sexual Rights, seeking to impose its twisted views on human sexuality on all nations. The declaration, if ever fully realized, would remove all legal, social, and religious barriers from all forms of sexual perversions in virtually any situation including public areas.

The Pill Kills 2009: The Pill Kills Women

{vimeo}4636394{/vimeo}

On Saturday, June 6 2009, pro-lifers across the country will be participating in the largest protest ever against the birth control pill and other birth control products. Last year, participants across the United States shared the facts on exactly how the pill kills babies. This year, we will expose the sordid details surrounding the tragic effects these chemicals have on women. We will emphasize the truth about how the pill kills women.

Join American Life League and protest the pill. Help us unmask the truth and hopefully save lives. You can do this by having a presence outside of doctors offices, pharmacies, Planned Parenthood clinics and other family planning facilities, or even out on the sidewalk at a busy intersection. Wherever it is help get the word out!

The captivating 30-minute program features stories of women and men who have suffered the devastating consequences of abortion.

It discusses the medical and scientific evidence that supports their stories and helps women who have never confronted their regret at having an abortion.

'Beyond the Dark Valley' refers those hurting from abortion to resources where they can find hope and healing after abortion and encourages those hurt by abortion to tell their stories.
